Belgrade, 27. 04. 2011

Dear Dr. A. Milosavljevic,

The *Conference on Elementary Processes in Atomic Systems* (CEPAS) is held triennially to promote the growth and exchange of scientific information in the field of photo-processes and laser collisions, electron (positron)/atom collisions, collisions with biomolecules, heavy particles (ion/atom) collisions, interactions with surfaces and processes with nano-sized complex systems. The fifth CEPAS conference will be held June 21st – 25th, 2011, in Belgrade, Serbia. The scientific program will consist of sessions of invited plenary (30+5 min for discussion) and topical (20+5 min) lectures. Contributed papers will be presented as posters in afternoon sessions.

It is our pleasure to invite you to participate and to prepare a topical lecture within the section

Collisions with biomolecules

We are looking forward to receiving the title and one page abstract of your talk, while the full length paper is intended to be published in NIMB international journal.

We hope very much that you will be able to accept our invitation: please let us know by 8 **May 2011** at the latest. Please note that all participants including speakers are supposed to pay the conference fee. You can find more information on the 2011 CEPAS Conference webpage www.cepas2011.ipb.ac.rs

We look forward to welcoming you to Belgrade in June 2011.
Very truly yours,

Dr. Bratislav Marinković
Chairman of the Fifth CEPAS 2011 Conference
