MemoCIS 8th Workshop and MC Meeting
'Memristors – Devices, Models, Circuits, Systems and Applications', Dresden, Germany
20.09. – 21.09.2018

PROGRAM

Day 2 - Friday, September 21st, 2018

15:15 – 16:30 Regular Papers (talks)
Chair: Alon Ascoli

- 15:15 – 15:30 **Bratislav P. Marinkovic**, „Memresistive behavior of Pt/TiO₂/Pt nanodevices prepared by focused electron beam induced deposition”
- 15:30 – 15:45 **Heidemarie Schmidt**, „Boolean and Fuzzy logics realized with electroforming-free complementary BiFeO₃ memristors”
- 15:45 – 16:00 **Oliver Pabst**, „Introduction to the human skin memristor”
- 16:00 – 16:15 **Andres Udál**, „Study of worldwide trends in memristor research – updated”
- 16:15 – 16:30 **M. Apostolopoulou and S.G. Stavrínides**, „Building a digital marketing strategy for the Chua Memristor Center”

Dear Bratislav P. Marinkovic,
please confirm us by email that you may present orally a talk with title "Memresistive behavior of Pt/TiO₂/Pt nanodevices prepared by focused electron beam induced deposition "
between 15:15 and 15:30 on Friday 21th of September.
In the preparation of the slides, take into account that you have 15 minutes for your talk.
Best regards
Alon Ascoli
