

Cost Action Serbia

Brussels meeting

Friday, October 26, 2018.

On October 26, Cost Action IS1402 on Ageism, AGE Platform Europe and the Committee of the Regions organized an international event to advocate for a future world all ages, in which age is no longer a barrier. Present the outcomes of the COST Action on Ageism to national and sub-national policymakers responsible for providing services and developing programmes targeting older citizens were goals for this final meetings. The coordinator / manager of the network was Prof. Dr. Ljiljana Tasić, Professor at the Faculty of Pharmacy, University of Belgrade.

For the past four years, approximately 200 researchers from 35 countries have working together in the Cost Action IS1402 Ageism to develop a comprehensive body of knowledge on the topic of ageism. The collaborative work has resulted a numerous of publications.

During the period of 4 years members of Cost Action IS1402 had been working in 5 work groups. First of all covered healthcare system. This WG was focused on various health care settings, and evaluate the healthcare provision and medication management of older adults.

Judicial-legal system. This WG was focused on legislations, judicial decisions and court rulings at the local and international levels and their implications for the rights and lives of older adults. Other groups focused on: ageism in the media, the workforce and internalized age stereotypes.

From starting forming our group active participate and expands very intensive. Prof.Dr Ljiljana Tasic and Mr. Valentina Marinković were speakers on more meetings.

The first Workforce Workgroup Meeting & Workshop which was co-organized by COST and University of Belgrade took place from 19-20 April 2018, in Belgrade. Discussions was focused on the place of older people on job market."Workplace bullying and older employees" was major subject.

The completion of the project brings the planning of activities that will be reflected in the compilation of the media reports, so that publicity in Serbia will be informed about the results of the research that the professional workers have come to for many years of work.
