European Research Council (ERC)

Institute of Physics Belgrade

Postdoctoral position

The position is in the group of Magdalena Djordjevic at the Institute of Physics Belgrade, and is funded by a recently awarded ERC consolidator grant in theoretical relativistic heavy ion physics (quark-gluon plasma). Candidates with a background in QGP medium simulations (relativistic hydrodynamics and/or parton transport theory) are encouraged to apply, and the postdoc will also strongly interact with Pasi Huovinen (University of Wroclaw, Poland). The position will start in September 2017, with the initial appointment of two years and a possible extension for one year. The review of applications will begin immediately and will continue until the position is filled.

Interested applicants should send the following material to magda@ipb.ac.rs:

- Cover Letter
- Curriculum Vitae
- Research Statement
- Publication List
- Three Reference Letters (to be sent by the reference writers)
